

CELLPHONES UNLEASHED NOW

Finally a Solution
to unlimited E-Mailing Direct
from your Computer without Creating ISP
or port 25 issues!

This Report is provided freely and a Viral
version is available; details below.

In the past several years we have tried several
solutions to an on going problem we have had to deal with
many, many times!

That is, we send lots of E-Mails and at one time we
could send as many as 20,000 per day if we wanted to.
We even made arrangements to have a STATIC IP
instead of the traditional dynamic IP.

Our Isp was informed as to what and how we
operated our Business.

Then they were purchased by AT&T
and there began the troubles.

A constant blocking of our port 25 and misinformed
customer service reps who swore nothing had changed
in our service became a nightmare!

We have changed service several times while looking for a solution
using a hosting account that's limited to about 1500 e-mails per day.

That didn't work so we tried using so called anonymous
services that hid your actual ISP called Proxy software in

which delivery comes into play.
There's plenty of software out there able to do this
but we have never found an effective one for a
desktop application!

The next solution would be an Auto-responder of which
we've used several. But the Expense goes up
with the number of e-mails on your List and is
very limited in adding leads created elsewhere.
Finally, *we found a Solution and one that was
so much more than just a solution!*

**A new Technology has arrived. A new service
as of July 1, 2009
and it's faster than cable!**

About 2 weeks from the date of this report
you will be able to experience an Unlimited
Income opportunity that comes with it.

Now let's stop right there for a moment. Do we care
if you take part in the business side of the Program?
No! Not at all, because I sign as many
customers as I do Reps!

*There are so many people rushing to take advantage of this new
Spectacular cost saving cell phone technology that it's
difficult to take all the calls and that's not hype!!*

HERE IS WHY

- **UNLIMITED INTERNET**-hooks right up to your computer
- **UNLIMITED E-MAILS**-just add a bulk e-mail software program
- **UNLIMITED DATA**-no user fees no network fees
- **UNLIMITED CALLS**-a Game Changer
- **UNLIMITED TEXT**- Text Away
- **6 WAY Video Conferencing**

- **No Contract! <> No Taxes!**

- No Credit Checks - No Surprises
- A flat rate \$79.95 per month – and guess what, when your bill arrives, its still \$79.95
With \$10 more per month, you can add 40 countries.

Imagine calling Japan and it's a local call!

Or so many more since all calls are treated as a local call.

But the real kicker from a marketing stand point is: I can hook up our computers to the phone and create unlimited e-mails, as long as I have the e-mail software on either our desktops or laptops. You can even drive an office network at
Faster than cable speeds!

I can eliminate my cell phone expense, my internet provider, and do a whole lot more and You can do the same!

Now for those who want to hear just how much you can make: It is truly limitless even for those who have Failed at everything before.

Average folks are creating an amazing income!
Hear it for yourself.

[Click Here](#) and listen to an amazing audio
or use the contact information available at
the bottom of the report.

Let's examine why this is the Fastest Growing Company
in the World, yet it's a mere 3 weeks old!
Just over 5,000 reps have joined to date!
And so you are One of the very first to hear
about this mind-blowing news.

Are you Tired of Paying too much and

**receiving so little beyond Surprises in your phone
and internet service provider bill?**

*While using my old phone system,
I accidentally hit im instead of speaker recently
and immediately hit the end call button, that 1 second
mistake cost us **\$40.57** since we don't have
data included in our plan.*

**Now for the meat and ‘taters.
Anyone want to make some serious money?**

Imagine a compensation plan as good as
the product virtually everyone wants.

No resistance, no convincing anyone to do anything.

For most, it's almost always cheaper than what they're
paying so much more for already so
when we include the ability to run your internet service at
blazing speeds exceeding Cable service, well, that's just
Icing on the Cake!

So how do You Make Money?

Start-ups involve 3 separate ways...

1) A 3x9 forced matrix that compresses both
Horizontally and Vertically.

2) phone plans pay out at \$10 per month residual pay.

2) 50% matching Bonus for every personally enrolled Rep.

Now realize this is the very basics of how it works.
Please read the compensation plan for further details
or listen to a call. Times and numbers are at the site
in the link previously listed or just [Click Here](#)
